ABOUT COMPANY

Kamarta Robotics Technology & Automation Pvt. Ltd. is a Pioneer in the field of Advanced, Intelligent Automation and service Robots.

Our core mission is to Redefine security, surveillance, and operational excellence by providing cutting-edge robotic solutions. With a specialized focus on innovation, safety, and adaptability, Kamarta Robotics has developed automatic robot solutions for challenging environments, including automatic security guards to meet the critical demand for enhanced monitoring and Protection.

Beyond security, our innovative robotic systems also serve a wide range of critical sectors, including healthcare , retail, education, and general industries.

Key Focus Areas: Robotics & Automations, AI, IoT, etc.

Robotics Internship Program

We are approaching you with a singular mission: To identify and recruit top-tier talent for full-time Placement. However, we also believe in nurturing the next wave of engineers. For pre-final year tech students, we offer an Internship Program designed to shatter the barrier between theory and real-world application. Whether you join us as an employee or an intern, you will enter an ecosystem where we deliver:

- High-Impact Training: Mastering Robotics, Automation, and AI.
- Real-World Leadership: Leading immersive projects under expert mentors.
- Future-Proofing: Evolving into a professional ready to dominate the automation landscape.

What we do ?

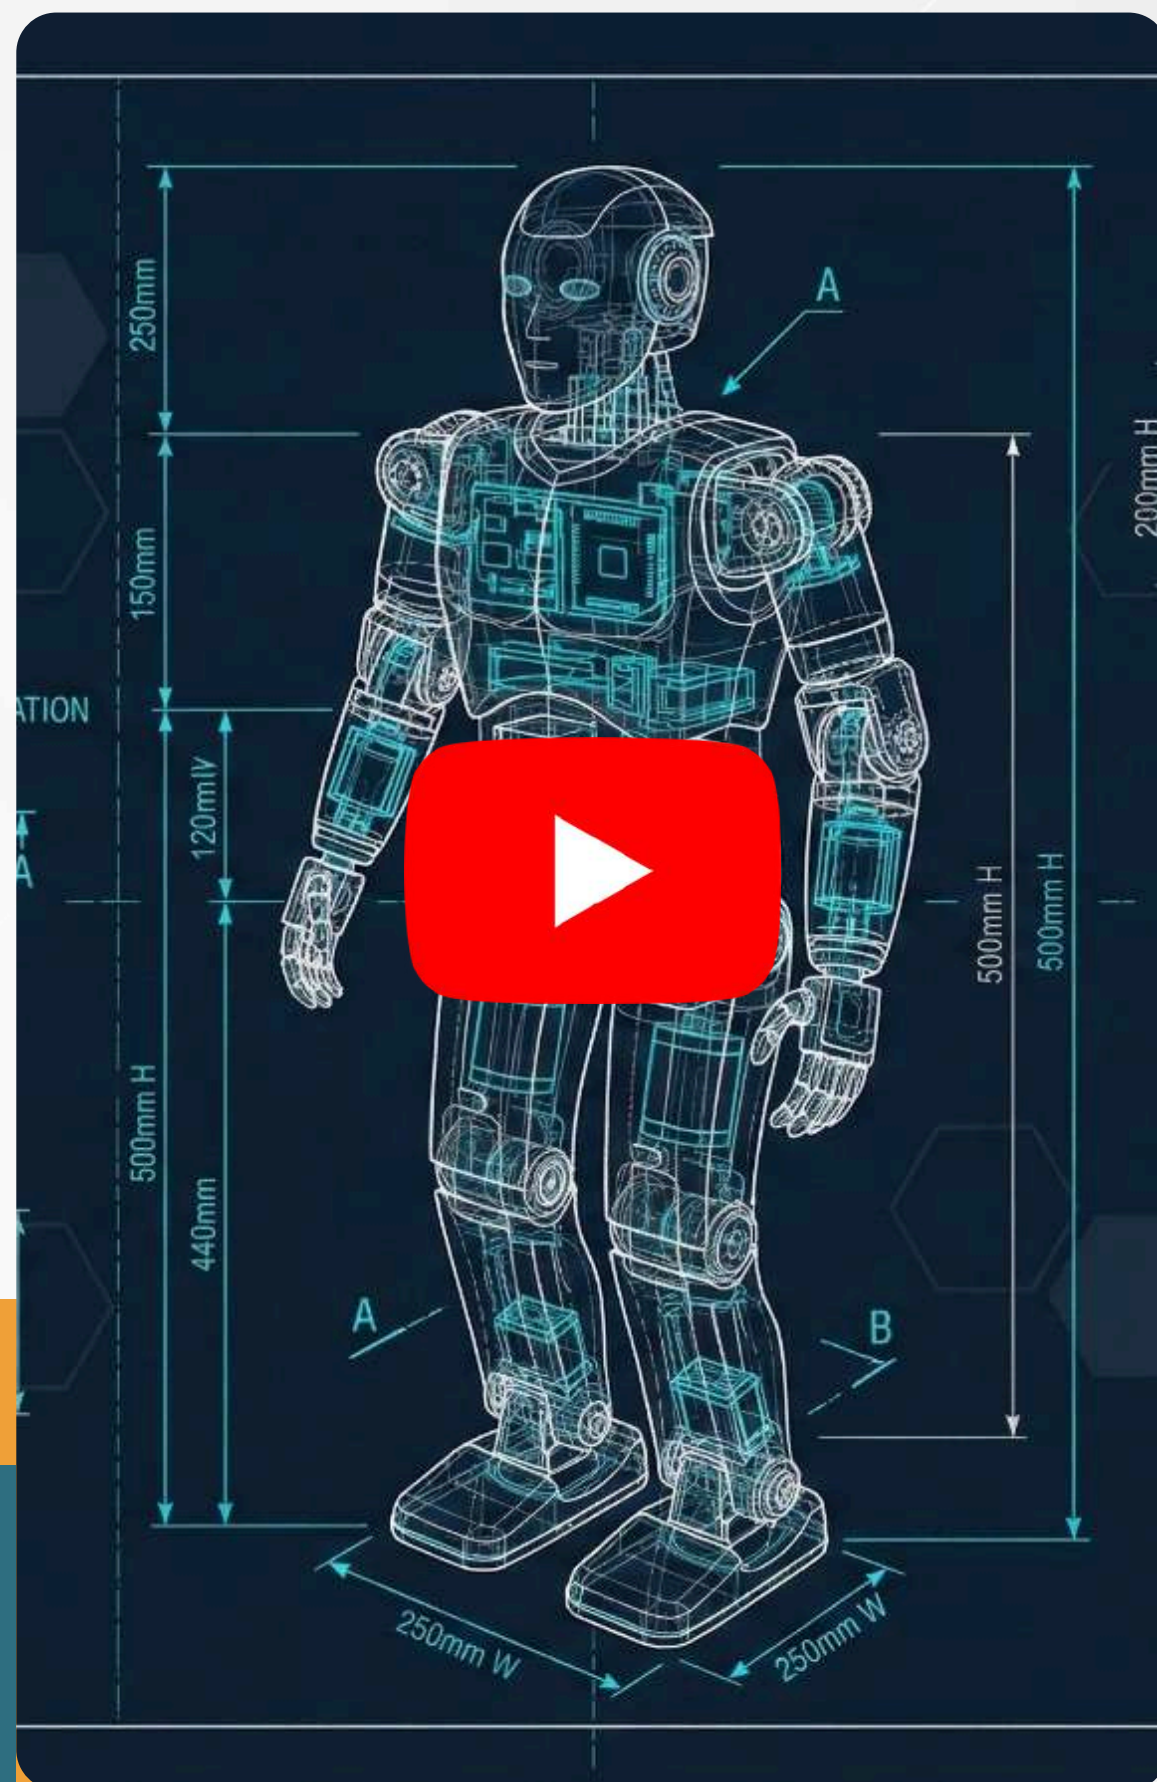

Engineering the Next Generation of Service Robots

At **Kamarta**, we take code off the screen and put it into the real world. We are a team obsessed with building robots that don't just sit in a lab—they work alongside people. Our flagship, the Kamarta humanoid Robot, is out there right now navigating busy hotels and critical hospital corridors. We don't do 'theory' here; we build real systems. When you join us, you get your hands dirty with the whole lifecycle—from sketching the hardware to writing the firmware that makes a robot 'think.' It's about building technology that actually helps someone.

Kamarta Robotics

Kamarta Robotics is a pioneering company in the field of intelligent service robots. Our mission is to revolutionize customer service and operational workflows by providing cutting-edge robotic solutions. With a focus on innovation, safety, and adaptability, Kamarta Robotics has developed the Path Finder Robot to meet the growing demand for automation in hospitality, healthcare, education, and retail sectors.

Key Enterprises: Robotics & Automations, AI, IOT, etc.

AI CM-04

Rated Power Input	1250 W
Blade Diameter	100 mm (1")
No-Load Speed	12000 RPM
Net Weight	4.0 kg
Switch Type	Slide Switch

Key Advantages

- ✓ **High-Power Output:** 1250W motor provides increased torque for cut cutting thicker granite tonouts compare macrets.
- ✓ **Dual Blade Capacity:** Versatile upports both 100mm and 125 blades.
- ✓ **V3 Premium Bearings:** Upgraded 2RS V3 bearings ensure smoother operation at thigh RPMs standard models.
- ✓ **ISI Certified:** Includes 0.5 sq mm ISI Copper Cord for guarnetrical safety.

ULTRA HIGH-POWER BLOWER

KAMARTA -0040

Feature	Specification
Rated Power Input	850 W (Maximum Series Power)
Air Flow Rate	4.0 m³/min (Highest in Class)
No-Load Speed	13000 RPM
Rated Amperage	3.3 Amp (High Torque)
Net Weight	2.5 KG (Heavy Industrial Build)
Warranty	1 Year (Extended Coverage)

Key Advantages

- ✓ **Ultimate Power:** Massive 850W motor generates a class-leading 4.0 m³/min airflow, capable of blowing wet leaves and heavy industrial waste.
- ✓ **Heavy-Duty Construction:** Weighing 2.5 KG, this unit is built with oversized copper coils and a reinforced PP-GF30% body for maximum ruggedness.
- ✓ **High-Torque Performance:** Draws 3.3 Amps to maintain speed even under heavy load conditions.
- ✓ **Extended Warranty:** "Our 18 month warranty" reflecting confidence in its industrial durability.
- ✓ **Premium Components:** Equipped with top-tier 2RS V3 bearings and 0.5 sq mm ISI Copper cord.
