Why KAMARTA?

100% Compliant
Safety Standards

High-Grade Copper Armatures
for Heavy Duty Cycles

Rapid Service Turnaround
& Spare Part Availability

Our Product Range

Marble Cutter

Electric Blowers

Power Drill

Angle Grinder

Heat Gun

Cut Off Machine MC14

[Detailed Specifications →](#)

HEAVY DUTY MARBLE CUTTER

ACM - 04

Rated Power Input	1050 W
No-Load Speed	12000 RPM
Blade Diameter	110 mm (4-3/8")
Net Weight	2.8 kg
Voltage	220-240V ~ 50Hz

Key Advantages

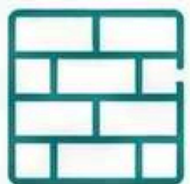

- ✓ **High-Torque Motor:** Optimized for fast cutting in hard stone.
- ✓ **Dust Proof Switch:** Enhanced longevity in dusty construction environments.
- ✓ **Ergonomic Grip:** Textured handle for stable control during vertical cuts.

Marble

Tiles

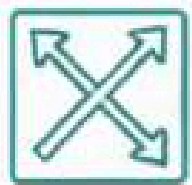

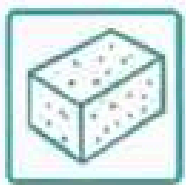

Masonry

Rated Power Input	1250 W
Blade Diameter	100 mm (1")
No-Load Speed	12000 RPM
Net Weight	4.0 kg
Switch Type	Slide Switch

Key Advantages

- ✓ **High-Power Output:** 1250W motor provides increased torque for cut cutting cutting thicker granite tonouts comparec omacrets.
- ✓ **Dual Blade Capacity:** Versatile uports both 100mm and 125 blades.
- ✓ **V3 Premium Bearings:** Upgraded 2RS V3 bearings ensure smoother operation at lhigh RPMs standard models.
- ✓ **ISI Certified:** Includes 0.5 sq mm ISI Copper Cord for guarnetrical safety.

100-125mm
Capacity

Granite/Stone

Concrete

INDUSTRIAL MARBLE CUTTER

ACM-05

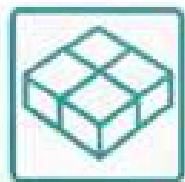

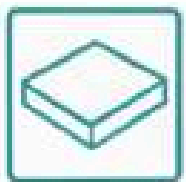

BIS Certified

Rated Power Input	1750 W (Maximum Power)
No-Load Speed	12000 RPM
Blade Capacity	125 mm (5 Inch)
Rated Amperage	3.0 Amp (High Torque)
Net Weight	2RS V3 (Heavy Duty)

Key Advantages

- **Extreme Power:** Massive 1750W motor delivers 3.0 Amps of current, designed to cut through the hardest materials without stalling.
- **Extended Capacity:** 125mm blade guard allows for deeper cuts compared to standard 110mm models.
- **Industrial Durability:** Built with PA6-GF30% reinforced body to withstand high heat and vibration during continuous heavy use.
- **Premium Bearings:** Equipped with top-tier 2RS V3 bearings for maximum stability under high-load conditions.
- **Electrical Safety:** 0.5 sq mm ISI Copper wire ensures safe power transmission.
- **Safety Standard:** Fitted with 0.5 sq mm ISI Copper cord.

Heavy Stone Cutting Road/Pavement

MARBLE CUTTER SPECIFICATION SUMMARY

Quick Reference for Orders & Inventory

Feature	ACM-04 (Standard)	AI CM-04 (Professional)	ACM-05 (Heavy Duty)
Rated Power	1050 W	1250 W	1750 W
Blade Capacity	110 mm	100 - 125 mm	125 mm
Amperage	1.8 Amp	1.8 Amp	3.0 Amp
No-Load Speed	12000 RPM	12000 RPM	12000 RPM
Net Weight	3.40 KG	4.00 KG	3.75 KG
Bearing Type	2RS V2	2RS V3	2RS V3
Body Material	PA6-GF30%	PA6-GF30%	PA6-GF30%
Warranty	18 Months	18 Months	18 Months
Ideal Application	Tiles & Standard Masonry	Granite & Concrete	Heavy Stone & Industrial Use

COMPACT ELECTRIC BLOWER

MPB 40

Rated Power Input	335 W
Air Volume	2.3 m ³ /min
No-Load Speed	13000 RPM
Net Weight	1.7 kg (Approx)
Function	Blowing Only

Key Advantages

- ✓ **High-Velocity Output:** Delivers strong airflow for dislodging heavy dust.
- ✓ **Lock-On Button:** Reduces finger fatigue during continuous operation.
- ✓ **Lightweight Design:** Easy one-handed operation.
- ✓ **Durable Impeller:** High-quality plastic fan designed to resist breakage.

COMPACT AIR BLOWER

EG-40

Rated Power Input	500 W
No-Load Speed	11000 RPM
Air Flow Rate	3.2 m³/min
Rated Amperage	2.2 Amp
Net Weight	1.4 KG (Ultra Lightweight)
Body Material	PP (Polypropylene)
Bearing Type	2RS V2

- ✓ **Ultra-Lightweight:** At just 1.4 KG, this is the lightest blower in the series, perfect for one-handed home and office use.
- ✓ **Energy Efficient:** 500W motor provides sufficient power for dusting without excessive energy consumption.
- ✓ **Compact Design:** Small form factor allows for easy storage and maneuvering in tight spaces (like computer cabinets).
- ✓ **Safe Operation:** Includes 0.5 sq mm ISI Copper cord for reliable electrical safety.
- ✓ **Value Choice:** An excellent entry-level solution for general cleaning tasks.

PC Cleaning

Home Dusting

Light Garden Use

Jse

STANDARD AIR BLOWER

AM-88

Feature	Specification
Rated Power Input	550 W
No-Load Speed	11000 RPM
Air Flow Rate	3.2 m ³ (MTR) ³
Rated Amperage	2.2 Amp
Net Weight	1.6 KG
Body Material	PP (Polypropylene)
Bearing Type	2RS V2

Key Advantages

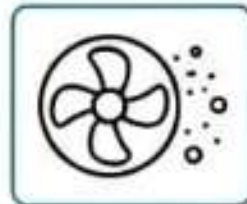

- ✓ **Enhanced Power:** Upgraded 550W motor delivers stronger continuous airflow for cleaning workshops and garages.
- ✓ **Balanced Weight:** At 1.6 KG, it offers a solid feel without causing operator fatigue during extended use.
- ✓ **Durable Construction:** Built with high-quality Polypropylene (PP) for resistance to minor impacts and scratches.
- ✓ **Standard Safety:** Equipped with 0.5 sq mm ISI Copper cord ensuring stable current flow.
- ✓ **Reliable Performance:** Designed for a 3-year durability cycle with consistent output.

General
Dusting

REINFORCED AIR BLOWER

UNB-88

Feature	Specification
Rated Power Input	550 W
No-Load Speed	11000 RPM
Air Flow Rate	3.2 m ³ (MTR) ³
Net Weight	1.8 KG (Heavy Duty Build)
Body Material	PA6-GF30% (Glass Fiber Reinforced)
Bearing Type	2RS V2

Key Advantages

- ✔ **Industrial Grade Body:** Constructed with PA6-GF30% (30% Glass Fiber), providing superior resistance to heat, drops, and impact compared to standard plastic.
- ✔ **Stable Operation:** Heavier 1.8 KG build reduces vibration, offering a steady grip during precision cleaning.
- ✔ **Consistent Power:** 2.2 Amp motor ensures reliable airflow for clearing metal shavings and sawdust.
- ✔ **Site Ready:** Designed to withstand the rough handling typical of construction and industrial environments.
- ✔ **Certified Safety:** Includes 0.5 sq mm ISI Copper cord.

VARIABLE SPEED BLOWER

AMV-88

Feature	Specification
Rated Power Input	550 W
Speed Control	Variable (Dial/Trigger)
No-Load Speed	0 - 11000 RPM
Air Flow Rate	3.2 m ³ (MTR) ³
Net Weight	1.6 KG
Body Material	PP (Polypropylene)

Key Advantages

- ✓ **Precision Speed Control:** Features a variable speed dial, allowing users to adjust airflow for delicate tasks (like cleaning motherboards) without damaging components.
- ✓ **Versatile Performance:** Seamlessly transition from low-speed dusting to high-speed debris removal.
- ✓ **Ergonomic Handling:** Balanced 1.6 KG weight reduces wrist strain during detailed cleaning work.
- ✓ **Durable Motor:** 2.2 Amp motor designed to handle frequent speed changes without overheating.
- ✓ **Safety Standard:** Fitted with 0.5 sq mm ISI Copper cord.

PROFESSIONAL AIR BLOWER

HGV AI-40

Feature	Specification
Rated Power Input	650 W (High Power)
No-Load Speed	11000 RPM
Air Flow Rate	3.2 m ³ (MTR) ³
Net Weight	1.800 KG
Body Material	PPGF30% (Glass Fiber Reinforced)
Bearing Type	2RS V3

Key Advantages

- ✓ **High-Power Performance:** Upgraded 650W motor delivers significantly more thrust than standard 500W models for stubborn debris.
- ✓ **Reinforced Housing:** Body built with PPGF30% (Polypropylene Glass Fiber) for enhanced structural integrity and heat resistance.
- ✓ **Stable Operation:** 1.8 KG weight provides a solid, balanced feel, reducing vibration during high-RPM operation.
- ✓ **Premium Bearings:** Equipped with 2RS V3 bearings for smoother rotation and longer motor life.
- ✓ **Safety First:** Includes 0.5 sq mm ISI Copper cord.

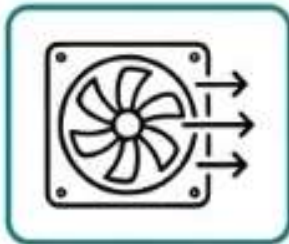

Feature	Specification
Rated Power Input	650 W
No-Load Speed	11000 RPM
Air Flow Rate	3.2 m ³ (MTR) ³
Net Weight	1.8 KG
Body Material	PPGF30% (Reinforced Polypropylene)
Bearing Type	2RS V3 (Sealed)

Key Advantages

- ✓ **Powerful Output:** 650W motor generates strong air pressure, ideal for dislodging stuck dust in deep crevices.
- ✓ **Reinforced Durability:** Built with PPGF30% composite to resist thermal deformation during extended operation.
- ✓ **Stable Bearing System:** V3 Sealed Bearings reduce friction and noise, ensuring smooth power delivery.
- ✓ **Ergonomic Balance:** Designed for comfort during repetitive industrial cleaning tasks.
- ✓ **Electrical Safety:** Fitted with 0.5 sq mm ISI Copper cord.

Ventilation Cleaning

Sawdust Removal

PREMIUM INDUSTRIAL BLOWER

HNL AI-40

Feature	Specification
Rated Power Input	650 W
No-Load Speed	11000 RPM
Air Flow Rate	3.2 m ³ (MTR) ³
Net Weight	2.0 KG (Solid Build)
Body Material	PA6-GF30% (Reinforced Nylon)
Warranty	1 Year (Extended Coverage)

Key Advantages

- ✓ **Extended Service Life:** Engineered for a 5-year operational durability cycle, significantly outlasting standard blowers.
- ✓ **Premium Body Material:** Constructed with PA6-GF30% (Nylon 6 + 30% Glass Fiber) for maximum resistance to heat and chemical oils.
- ✓ **Heavy-Duty Components:** The 2.0 KG weight reflects the use of oversized copper armatures and heavy-duty stators.
- ✓ **1-Year Warranty:** Backed by a comprehensive **18 month warranty** on Armature and Field Coil.
- ✓ **Superior Bearings:** Uses high-grade 2RS V3 bearings to minimize wear during prolonged operation.

ULTRA HIGH-POWER BLOWER
KAMARTA -0040

Feature	Specification
Rated Power Input	850 W (Maximum Series Power)
Air Flow Rate	4.0 m³/min (Highest in Class)
No-Load Speed	13000 RPM
Rated Amperage	3.3 Amp (High Torque)
Net Weight	2.5 KG (Heavy Industrial Build)
Warranty	1 Year (Extended Coverage)

Key Advantages

- ✓ **Ultimate Power:** Massive 850W motor generates a class-leading 4.0 m³/min airflow, capable of blowing wet leaves and heavy industrial waste.
- ✓ **Heavy-Duty Construction:** Weighing 2.5 KG, this unit is built with oversized copper coils and a reinforced PP-GF30% body for maximum ruggedness.
- ✓ **High-Torque Performance:** Draws 3.3 Amps to maintain speed even under heavy load conditions.
- ✓ **Extended Warranty:** “Our 18 month warranty” reflecting confidence in its industrial durability.
- ✓ **Premium Components:** Equipped with top-tier 2RS V3 bearings and 0.5 sq mm ISI Copper cord.

AIR BLOWER SELECTION GUIDE

From Compact Cleaning to Industrial Heavy Duty

Model	Power	Air Flow (m³/min)	Speed (RPM)	Weight	Body Material	Special Feature
MPB-40	335 W	2.3 m³	13000	1.7 KG	Standard	Compact Entry Level
EG-40	500 W	3.2 m³	11000	1.4 KG	PP	Ultra-Lightweight
AM-88	550 W	3.2 m³	11000	1.6 KG	PP	Standard Duty
UNB-88	550 W	3.2 m³	11000	1.8 KG	PA6-GF30%	Reinforced Body
AMV-88	550 W	3.2 m³	0-11000	1.6 KG	PP	Variable Speed
HGV AI-40	650 W	3.2 m³	11000	1.8 KG	PP-GF30%	High Power Standard
AI 007	650 W	3.2 m³	11000	1.8 KG	PP-GF30%	High Performance
HNL AI-40	650 W	3.2 m³	11000	2.0 KG	PA6-GF30%	5-Year Durability
Kamarta -0040	850 W	4.0 m³	13000	2.5 KG	PP-GF30%	Flagship Power

For Home/Office: EG-40 or MPB-40 (Lightweight & Efficient). **For Electronics:** AMV-88 (Variable speed prevents damage to components).
For Industry: HNL AI-40 (Longest life) or Kamarta -0040 (Maximum power).

COMPACT IMPACT DRILL

AM-13B

Feature	Specification
Rated Power Input	450 W
Chuck Capacity	13 mm (1/2 Inch)
No-Load Speed	2500 - 3000 RPM
Impact Rate	48000 BPM (High Impact)
Net Weight	1.800 KG
Body Material	PA6-GF30% (Reinforced)

Key Advantages

- ✓ **Dual Functionality:** Switch easily between "Rotary Mode" for wood/metal and "Impact Mode" for masonry drilling.
- ✓ **High Impact Rate:** Delivers 48,000 blows per minute (BPM) for fast penetration into brick and light concrete.
- ✓ **Reinforced Body:** Constructed with PA6-GF30% (Glass Fiber Reinforced) to withstand vibration and job site abuse.
- ✓ **Smooth Operation:** Equipped with premium 2RS V3 bearings for stable, wobble-free drilling.
- ✓ **Electrical Safety:** Fitted with 0.5 sq mm ISI Copper cord.

VARIABLE SPEED IMPACT DRILL

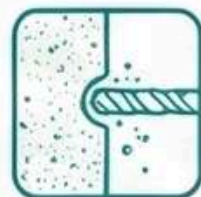

ID-10 / ID-13

Wood

Metal

Light Masonry

Feature	Model ID-10	Model ID-13
Rated Power	550 W	600 W
Chuck Capacity	10 mm	13 mm
No-Load Speed	2700 RPM	1800 RPM
Impact Rate	43,200 BPM	28,800 BPM
Net Weight	1.8 kg	2.0 kg

Key Advantages

- ✓ **Dual Function Switch:** Seamless toggle between rotary drilling (wood/metal) and impact drilling (concrete).
- ✓ **Variable Speed & Reverse:** Precise control for screwdriving and delicate drilling.
- ✓ **Ergonomic Design:** Soft-grip handle reduces vibration during impact usage.
- ✓ **Heavy-Duty Chuck:** Ensures bit retention during high-torque applications.

Standard Professional Drill & Polisher

KAMARTA AM SERIES

Feature	Specification
Rated Power Input	650 W
Function Type	Multi-Speed Drill / Polisher
RPM Settings	1250 / 2250 / 2900 RPM (3-Speed)
Chuck Capacity	10mm or 13mm (Drill Variant)
Net Weight	2.500 KG
Body Material	PA6-GF30% (Reinforced)

Key Advantages

- ✓ **3-Speed Gearbox:** Mechanical gear selection allows for high torque at low speeds (polishing/large hole drilling) and high speeds for small bits.
- ✓ **Dual Application:** Versatile design serves as a powerful hand drill or a dedicated surface polisher depending on the attachment.
- ✓ **Heavy-Duty Build:** Weighing 2.5 KG with a reinforced PA6-GF30% body, built for sustained industrial use.
- ✓ **Consistent Power:** 650W motor maintains selected RPM under load for uniform polishing finishes.
- ✓ **Electrical Safety:** Fitted with 0.5 sq mm ISI Copper cord.

Premium Heavy Duty Drill & Polisher

KAMARTA AI SERIES

Drill Config (10/13mm)

Polisher Config

Feature	Specification
Rated Power Input	650 W
Function Type	Multi-Speed Drill / Polisher
RPM Settings	1250 / 2250 / 2900 RPM
Bearing Type	2RS V3 (High Performance)
Net Weight	2.600 KG (Solid Stability)
Body Material	PA6-GF30% (Reinforced)

Key Advantages

- ✓ **Premium Bearing System:** Upgraded with 2RS V3 bearings for reduced friction, lower noise, and significantly longer lifespan under heavy load.
- ✓ **Superior Stability:** Heavier 2.6 KG construction dampens vibration, providing a smoother finish when polishing or drilling hard metals.
- ✓ **3-Speed Versatility:** Mechanical gear switching ensures optimal torque delivery at any speed setting (Low, Medium, High).
- ✓ **Industrial Durability:** Reinforced PA6-GF30% body withstands heat and impact in tough work environments.
- ✓ **Safety Standard:** Fitted with 0.5 sq mm ISI Copper cord.

PROFESSIONAL ROTARY HAMMER

MPH20

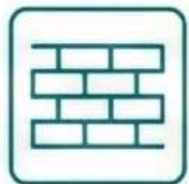

Rated Power Input	680 W
Drilling Capacity	20 mm (Concrete)
No-Load Speed	0 - 850 RPM
Impact Rate	0 - 4850 BPM
Net Weight	2.3 kg

Key Advantages

- ✓ **SDS-Plus Chuck:** Industry-standard system for rapid, secure bit changes.
- ✓ **Safety Slip Clutch:** Protects the user and motor if the bit jams in rebar.
- ✓ **Variable Speed:** Trigger-controlled speed for clean hole starting.
- ✓ **Dual Mode:** Switch easily between Rotary Drilling and Hammer Drilling.

DRILLING & FASTENING SERIES COMPARISON

From Precision Drilling to Heavy Duty Concrete Breaking

Model	Type	Power	Speed (RPM)	Impact / BPM	Weight	Special Feature
AM-13B	Impact Drill	450 W	2500-3000	48000 BPM	1.8 KG	High Impact Rate (Compact)
ID-10 / 13	Impact Drill	550 / 600 W	2700 / 1800	43200 / 28800	1.8 / 2.0 KG	Variable Speed & Reverse
KAMARTA AM SERIES	Drill / Polisher	650 W	1250/2250/2900	N/A	2.5 KG	3-Speed Gearbox
KAMARTA AI SERIES	Drill / Polisher	650 W	1250/2250/2900	N/A	2.6 KG	V3 Bearings & Heavy Build
MPH20	Rotary Hammer	680 W	0 - 850	0 - 4850 BPM	2.3 KG	SDS-Plus & Concrete Breaking

For Masonry/Brick: AM-13B or ID-13 (Best balance of speed and impact). **For Wood/Metal & Polishing:** AMBER or AKSHAR (High torque, no hammer action). **For Hard Concrete:** MPH20 (The only choice for drilling into reinforced concrete).

COMPACT ANGLE GRINDER

AM-801

Feature	Specification
Rated Power Input	800 W
Disc Diameter	100 mm (4 Inch)
No-Load Speed	12000 RPM
Rated Amperage	1.2 Amp
Net Weight	2.00 KG
Bearing Type	2RS V2 (Dust Sealed)

Key Advantages

- ✓ **Efficient Power:** 800W motor delivers sufficient torque for standard cutting and grinding tasks in metal workshops.
- ✓ **Lightweight Handling:** Weighing just 2.0 KG, it reduces operator fatigue during overhead or vertical grinding applications.
- ✓ **Durable Housing:** Body constructed from PA6-GF30% (Reinforced) to resist heat and impact on busy job sites.
- ✓ **Dust Protection:** Equipped with 2RS V2 sealed bearings to prevent metal dust from damaging internal components.
- ✓ **Safety Standard:** Fitted with 0.5 sq mm ISI Copper cord.

PROFESSIONAL ANGLE GRINDER

AM-AG900

Feature	Specification
Rated Power Input	900 W
Disc Diameter	100 mm (4 Inch)
No-Load Speed	12000 RPM
Rated Amperage	1.8 Amp (High Torque)
Net Weight	2.10 KG
Bearing Type	2RS V3 (Dust Sealed)

Key Advantages

- **High-Torque Motor:** 900W motor draws 1.8 Amps, providing significantly more cutting force than standard entry-level grinders.
- **Premium V3 Bearings:** Upgraded to 2RS V3 sealed bearings for superior smoothness and extended lifespan under load.
- **Optimized Cooling:** Designed with improved air vents to dissipate heat during continuous grinding sessions.
- **Solid Build:** At 2.10 KG, the heavier armature and field coil ensure stability and vibration dampening.
- **Safety Standard:** Fitted with 0.5 sq mm ISI Copper cord.

5-INCH HEAVY DUTY GRINDER

AI-801

Feature	Specification
Rated Power Input	980 W
Disc Diameter	125 mm (5 Inch)
No-Load Speed	12000 RPM
Rated Amperage	1.2 Amp
Net Weight	2.20 KG
Bearing Type	2RS V3 (High Performance)

Key Advantages

- **Extended Capacity:** 125mm (5") disc size allows for deeper cuts in thick metal pipes and stone compared to standard 4" grinders.
- **Optimized Power:** 980W motor is perfectly tuned to drive larger wheels without stalling under moderate load.
- **Heavy-Duty Bearings:** Equipped with premium 2RS V3 bearings to handle the increased radial load of a larger disc.
- **Stable Handling:** Heavier 2.2 KG body weight provides stability, reducing kickback risk during deep cutting.
- **Safety Standard:** Fitted with 0.5 sq mm ISI Copper cord.

Metal
Grinding

Cutting

Polishing

Key Advantages

- ✓ **Compact Gear Housing:** Allows operation in tight, confined spaces.
- ✓ **Spindle Lock:** Quick and easy disc changes without extra tools.
- ✓ **Optimized Airflow:** Rear exhaust cools the motor for extended usage.
- ✓ **Burst-Proof Guard:** Maximum user safety during disc failure.

Feature	Specification
Rated Power Input	1200 W
Disc Diameter	100 mm (4 Inch)
No-Load Speed	12000 RPM
Rated Amperage	1.2 Amp (Amp (No Load))
Net Weight	2.200 KG (Heavy Duty Build)
Bearing Type	2RS V3 (Dust Sealed)

Key Advantages

- **Extreme Power Output:** Massive 1200W motor provides class-leading torque, preventing wheel stall even under extreme grinding pressure.
- **Industrial Durability:** Built with a reinforced PA6-GF30% body to withstand the high heat and physical abuse of heavy industrial sites.
- **V3 Bearing System:** Premium 2RS V3 sealed bearings ensure smooth operation and longevity at high RPMs.
- **Heavy-Duty Stability:** At 2.2 KG, the solid construction absorbs vibration, reducing operator fatigue during continuous use.
- **Safety Standard:** Fitted with 0.5 sq mm ISI Copper cord.

WIDE-RANGE HEAT GUN

AMHG-2000

Rated Power Input	2000 W
Temperature Range	220°C - 600°C
Air Flow Rate	230 / 350 (L/min)
Rated Amperage	7 AMP
Net Weight	0.75 KG
Body Material	PP-GF30%(Reinforced)

Key Advantages

High-Power Heating: 2000W element quickly reaches operating temperature for efficient workflow.

Dual Temp Control: Two-stage switch allows users to toggle between 220°C (for gentle drying/shrinking) and 600°C (for stripping paint).

Lightweight Design: At just 0.75 KG, it prevents hand fatigue during overhead or prolonged use.

Durable Housing: Body made from PP-GF30% to withstand high operating temperatures without deformation.

Safety Cord: Equipped with heavier 0.75 sq mm ISI Copper cord to handle the high current draw (7 Amp)

Paint Removal

Shrink Wrapping

PVC Bending

WIDE-RANGE HEAT GUN

AIHG-2000

Rated Power Input	2000 W
Temperature Range	50°C - 650°C
Air Flow Rate	230 / 350 (L/min)
Rated Amperage	7 AMP
Net Weight	0.8 KG
Body Material	High-Heat Nylon

Key Advantages

Precision Temperature Control: Operates from as low as 50°C, making it safe for drying paint or thawing pipes without scorching the material.

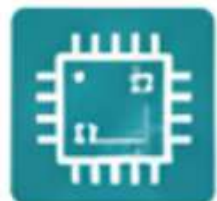

Maximum Heat Output: Reaches up to 650°C for heavy-duty applications like loosening rusted bolts or stripping multiple paint layers.

Superior Material: Constructed with PA633GF (Specialized Glass-Filled Nylon), offering better heat insulation and impact resistance than standard Material .

Heavy Duty Cord: Includes 0.75 sq mm ISI Copper cord to safely manage the 2000W load.

Feature	Specification	
Rated Power Input	2400 W	High Power
Wheel Diameter	355 mm (14")	
No-Load Speed	3900 RPM	
Net Weight	18.0 kg	
Base Material	Reinforced Steel	

Key Advantages

- ✓ **High-Overload Motor:** 2400W armature designed to resist overheating during continuous cutting.
- ✓ **Spark Diversion Guard:** Adjustable guide plate to safely direct sparks away from the operator.
- ✓ **Quick-Release Clamp:** Fast material clamping system for improved workflow efficiency.
- ✓ **Heavy-Duty Base:** Extra-wide steel base provides maximum stability and vibration control.

Critical Safety Rules

- ⚠ 1. **Personal Protection:** Always wear appropriate safety gear (PPE) during operation.
- ⚠ 2. **Accessory Check:** Inspect discs and bits for cracks or damage before every use.
- ⚠ 3. **Workplace Safety:** Keep the work area clean, well-lit, and free of flammable materials.
- ⚠ 4. **Electrical Safety:** Ensure the tool is grounded and the voltage matches the rating plate (220V). Do not use in wet conditions.

WARRANTY POLICY

What is Covered:

- ✓ Manufacturing defects in the Armature and Field Coil.

What is Not Covered:

- ✗ Normal wear and tear, carbon brushes, bearings, switches, gears, and external body damage caused by misuse.

Claim Process

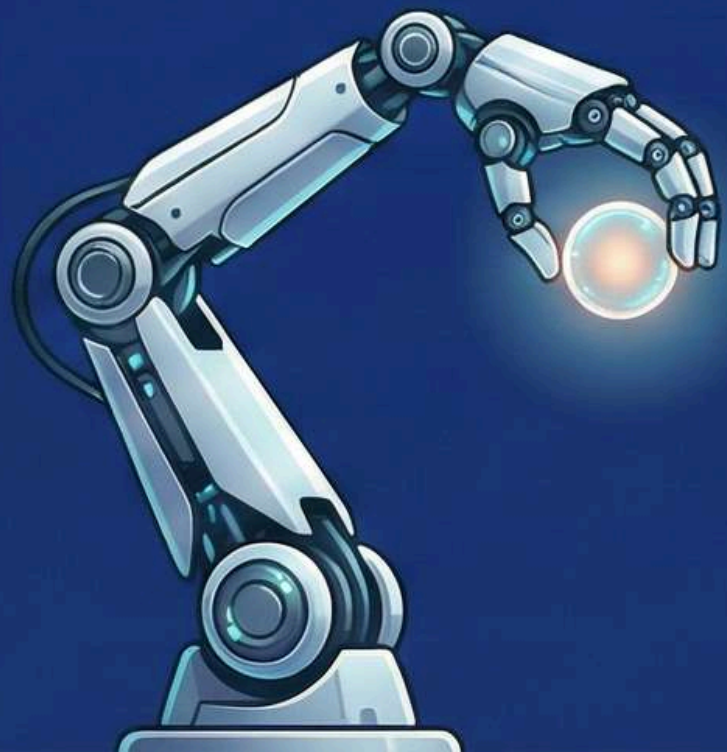

- 📋 1. Maintain your original purchase invoice.
- 📋 2. Do not attempt to open or repair the tool yourself (voids warranty).
- 📋 3. Nationwide Service Centers available. Visit website for the nearest location and Claim your WARRANTY COVERAGE.
